# *TEC rolling work-plan*

- The TEC agreed to include in its rolling work plan 2016–2018, a task to prepare a draft methodology on how to monitor the TNA results, including what such monitoring should include, with a view to showcasing success stories.

- The TEC task force on TNAs has developed an outline of the methodology for monitoring TNA results.

- The TEC 13 agreed to change the outline draft methodology to a TEC working paper, and proposed to prepare a draft methodology on monitoring and evaluation of the implementation of TNA results for its further consideration in 2017.

- The TEC 14 will be invited to consider and agree on the methodology on monitoring and evaluation of the implementation of TNA results, and any appropriate follow-up activities for undertaking such monitoring.

## *Draft methodology on monitoring*

- This note provides a draft methodology on monitoring and evaluation of the implementation of TNA results, to assist in creation of an effectively working monitoring system of the implementation of TNA results, including TAPs.

- This aims to assist in:

  - the identification of implemented TAPs and of factors that contribute towards TAPs implementation,

  - showcasing of success stories and good practices from TNA implementation of developing countries,

  - the TEC in delivering relevant key messages and recommendations to Parties through the COP 23.
