

Agenda item 5.c.ii

Inputs to the COP 24 stocktake on pre-2020 implementation and ambition

TEC/2018/17/9

Technology Executive Committee, 17th meeting
Bonn, Germany, 25–28 September 2018

Claudia Octaviano
Chair of the TEC

Background

- The COP, by decision 1/CP.23, decided to convene a stocktake on pre-2020 implementation and ambition at COP 24. The COP decided that the stocktake will consider, inter alia, inputs of the constituted bodies under the UNFCCC and the Kyoto Protocol.
- The presidents of COP 23 and COP 24 invited the Chair of the TEC to submit a concise written input on the TEC's work of relevance to pre-2020 implementation and ambition.

Inputs of the TEC

- The inputs contain factual information. They mainly focus on the engagement of the TEC in the TEP-M, which has been established with the aim to increase the mitigation ambition of pre-2020 climate action:
 - Provision of inputs and recommendations on the implementation of the TEP
 - Engagement in the TEMs on mitigation
 - Follow-up on policy options identified through the TEP
- The inputs also generally refer to TEC activities undertaken in other thematic areas, where further information can be found on the TT:CLEAR “TEC impacts” page.

Expected action

- The TEC is invited to consider and agree on inputs
- The inputs will be submitted by 1 October 2018 to the presidents of COP 23 and COP 24

Thank you!
